EDUCATION

Northeastern University | Khoury College of Computer Science | Boston, MA

Expected May 2028

Bachelor of Science in Computer Science and Business Administration (Marketing Analytics)

GPA: 3.7/4.0

- **Relevant Coursework:** Object-Oriented Design, Algorithms & Data Structures, Databases, Information Systems & Digital Technologies, Discrete Structures, Computer Systems, Financial Accounting, Managerial Accounting, Financial Management, Microeconomics, Macroeconomics, Marketing, Quantitative Analysis of Consumer Data
- **Activities & Awards:** Women Interdisciplinary Society of Entrepreneurship, Dean's Scholarship, Dean's List

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, HTML, CSS, SQL, R, TypeScript, Python, Kotlin, Swift, C

Frameworks: JUnit, SwiftUI, Swing, Node.js, Express.js, Jest | **Tools:** Git, IntelliJ, Netlify, VSCode, Xcode, Postman

EXPERIENCE

Takeda Pharmaceuticals

Jul 2026 - Present

Analytics Co-op

Cambridge, MA

- Built a customizable request-tracking website that pulls data directly from the organization's database, replacing manual Excel tracking and enabling the team to manage request timelines and assignees in real time
- Engineered TypeScript-based Excel automation integrated with Microsoft Power Automate to streamline sample preparation and analysis workflows, achieving 5x greater efficiency than traditional manual calculations
- Debugged C# and Python scripts and troubleshoot Lynx laboratory automation equipment for sample preparation

Wegmans

Jun 2023 - May 2024

Customer Service Associate

Whippany, NJ

- Achieved top 10 best efficiency as cart-to-curb shopper for online orders, bagging, and delivering to driver
- Fulfilled 50+ weekly orders with 100% accuracy, awarded CARE card for excellence in customer service

PROJECTS

MatchaMap | <https://matchamapneu.netlify.app> | HTML, CSS, JavaScript, SQL

Nov 2025 - Jan 2026

- Compiled a 7-table SQL database with 250+ reviews, 15+ cafes, and 100+ matcha drinks around Northeastern
- Integrated a keyword search, 3 filter methods, and 5 sorting methods to find the best matcha fit for the user

Calendar | *code available upon request to jessmengg@gmail.com | Java, Swing

Jun 2025

- Implemented a Model-View-Controller architecture across 9 modules and ~45 Java classes, enabling clear separation of concerns and significantly improving code organization, maintainability, and scalability
- Incorporated text-based interface, GUI, and headless mode as different ways to interact with calendar functions

Snoopify - Snoopy x Spotify | <https://github.com/jessmengg/snoopify> | Swift, SwiftUI

Mar 2025

- Developed an iOS app inspired by Spotify with 50+ UI components and Snoopy-themed visual elements
- Showcased reusable and scalable code with data models organized across Models, Core, and Components folders

LEADERSHIP

Northeastern University Women Interdisciplinary Society of Entrepreneurship

Jul 2026 - Present

Alumni Relations Associate

Boston, MA

- Building and maintaining relationships with WISE alumni, serving as the connective tissue between current WISE leadership and the growing network of past members, donors, and advancement contacts
